

# Anleitung Web-UI für Voicebot-Prototypen

## Schritt 1:

Gehen Sie zu folgender URL: <https://web.sg.nairon.dev>

## Schritt 2

### Einloggen

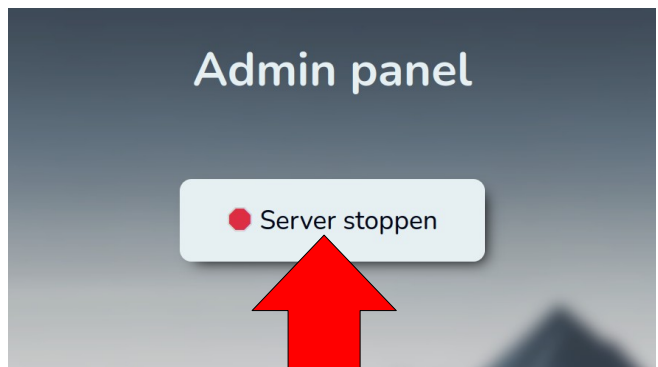

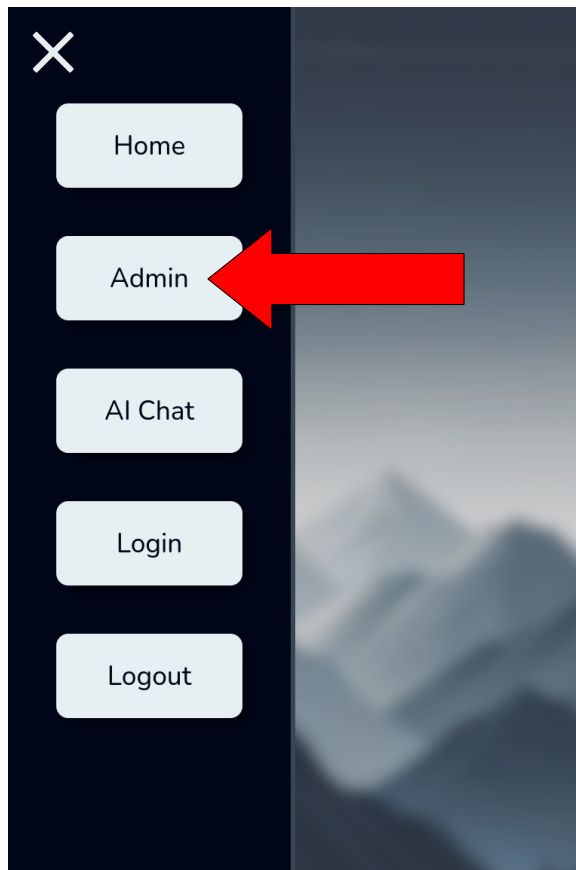

- Benutzername: [kanton@nairon.dev](mailto:kanton@nairon.dev)
- Passwort: <In der Info-Mail>

The image shows a dark-themed sign-in form. At the top, the text "Sign in" is displayed in a large, white, sans-serif font. Below this, there are two input fields. The first field is labeled "E-Mail" in a small, light gray font, and the text "user@mail.com" is entered in a white font. To the right of the email field is a purple hexagonal icon with a white asterisk-like symbol inside. The second field is labeled "Password" in a small, light gray font, and it contains a series of white dots representing a masked password. Below the password field is a white button with rounded corners that contains the text "Sign In with E-Mail" in a dark gray font. The entire form is set against a dark blue background with a subtle, lighter blue abstract pattern.

## Schritten 3

### 1. Testen (Telefon)

#### **Server starten und stoppen**

Wichtig: Dieser Prozess dauert eine Weile, der Button sollte aber nicht mehrfach gedrückt werden.

(Verantwortlich für den Telefon-Service, nicht für den Text-basierten Chat)

### 2. Testen (Text-basiert)
